| ![Christmas](image) **NO CAMP**  
Christmas Holiday | Campers will learn how to identify common native plants and their ethnobotanical uses while hiking through Deering Estate’s natural areas. Campers will also identify animals scat by learning about various types of animal’s diets and making their own edible scat! | Campers will create their own hiking sticks from invasive melaleuca trees which they will use during the week’s hikes! They will also experiment with water filtration, learning how to use natural materials to remove dirt from water just as its filtered through the water cycle. | Campers will get to practice their survival skills by learning how to use a compass and map, and will go on a scavenger hunt to find the materials needed to build a shelter. Campers will also get to go hiking through our historic Slough ecosystem, where they will see a natural creek. | Campers will trek through the natural areas, past remains from the Town of Cutler to discover a crashed airplane. Along the way they will conduct an anole survey, and they will also get the chance to play a camp favorite game of capture the flag! |
