

Deering Estate Camp

“Science of the Wild”

Explore the wild as campers study wildlife through engineering challenges and use the scientific method to observe, question, and understand how animals and ecosystems work.

ECO (ages 6-8) Week 4 Overview: JUNE 29-JULY 2

Alt Text: Table showing a Monday–Friday camp schedule with daily activities listed for each day.

MON	TUE	WED	THU	FRI
Experiment with water samples to explore pH and color changes, then build teamwork and problem-solving through exciting challenges to start the week!	Learn to identify trees by their unique bark patterns as you create your own ID guide. Later, explore how animals adapt to their environments and different habitats.	Build and test a catapult as you explore the basics of force, motion, and engineering. Followed by a fun experiment involving chemical reactions and rocket launch.	Explore Deering’s slough on a wet hike. Later, campers will participate in exciting field game to learn how animals survive in the wild.	 <p>NO CAMP 4th of July Observed</p>

*Scheduled activities are subject to change.
